Lianda Corporation is an importer/distributor of chemicals for the rubber and plastics industries and as such, does not manufacture any materials. Lianda Corporation is aware of the REACH initiative currently ongoing in the EU and we have been actively working with our principals and partners to ensure pre-qualification of our products where required.

If you require specific information regarding the materials that you purchase from Lianda or have any questions regarding their status under the REACH initiative, please do not hesitate to contact us at the number below.

Lianda's goal is to work with our customers to ensure an adequate exchange of information as we move through the pre-registration and registration periods.
